

Dear Folks:

It's almost time for Creation! I can hardly wait! Who knows, maybe we will get rained on this year. Maybe we will choke on dust. Whatever the weather is, I know we will all have a positive, flexible attitude like usual.

We will meet at our church on _____, at ___ am/pm to go to Creation. Your \$_____ for food is due _____ (fifteen days earlier). We need this well in advance so we can buy food and supplies for our camp. At the time you pay for food and gas, you

will receive several lists to help you survive Creation Fest.

It is important for you to understand that since you are going to Creation, you will need to help by providing some things that we as a group can use. Here is a rough idea of what you need to do as an individual to prepare for this year's Creation, as well as some things you could do to help our group survive this year at Creation.

- _____ \$_____ for food _____ by deadline.
- _____ Bring your own tent or find someone who has a tent that can share with you
- _____ Can you drive to Creation? Gas money will be available.
- _____ Does anybody want to make a banner for us?
